A close-up photograph of a baby with blue eyes sitting in a grey stroller. The baby is wearing a white long-sleeved shirt and a grey harness. A hand is visible on the left, holding the black handle of the stroller. The stroller is positioned on a wooden slat bench. The background shows a paved surface with a yellow line.

The Mysa collection is a comfort, sensorial and visual wellness experience, thanks to the delicate colours and the soft touch effects of fabrics and tubes.

BLACK SATIN

is the colour of «smart» elegance, an experience combined with glam and light: the canopy fabric blends grey and black in a refined mélange; the tubes, of a sophisticated rose copper colour, give air to the chassis as well as brightness.

SILVER GREY

is the set of «casual» elegance. The minimal color of this collection further brings out the mahogany colored details of handle and bumper bar and the brightness of the silver tube.

AMBER GLOW

is finesse: the canopy fabric is monochrome, unique in the whole collection: an ivory tone with warm nuances matches well with the tube that evokes the color of antique amber.

ROYAL BLUE

is the classic and elegant quintessential choice. It results in a refined blend between the rich and plain blue of the seat fabric and the wavy effect of the canopy melange fabric. A colour that expresses calm and serenity, also found in the coordinated tube.

JADE GREEN

is the trending color, a brilliant choice that proves to be a stylish alternative to the more «classic» choices. The almost iridescent shade of the tube blends with the refined nuances of a pastel green mélangé.
